

Ground Rules for Exam

You may use only:

- Course-related material on your hard drive (programs, notes, etc).
- Files we posted on the courseware page.
- Paper notes.
- A pencil/pen.

When your computer is running, NO electronic communication programs (e.g., email, chat rooms, or instant messaging) are to run. This will result in an F in the course—even if it just pops up to say ‘so and so’ is on line. SHUT IT DOWN.

The use of any resource not specifically allowed is prohibited. The use of prohibited resources is likely to result in an F in the class.

At the end of class, you are required to close/quit/exit your programs. You will have a few minutes to post your files to the DFS folder.
