

Rose-Hulman Astronomy Club Meeting Minutes for 2009-04-02

- We will be declining our invitation to the Blue-Key youth science day.
- This weekend is Oakleys 100 Hours of Astronomy Celebration! The open house will be Friday or Saturday night, weather permitting. Note: you do NOT have to be there all 100 hours. The open house will likely be around 2 hours. We'd love to have a few members there to help run the scopes.
- Elections will be next week. Again, if you are an active member please come vote! Start thinking about what position, if any, you would like to run for and if you have any questions, contact any of the officers.
- Some of the pictures that were mounted for the physics hallway suffered some water damage. If you helped out with these, you may pick out a picture you would like to keep from Steve Letsingers office, as they cannot be displayed.
