

**Ground Rules for the Final Exam:**

You may use only:

- Any paper notes (including course handouts) you brought to the exam, or electronic notes residing on your local (C:) hard drive.
- The course website, including any code from the website. (This is the only approved use of the internet for this exam.)
- Code written by you or by your lab partner(s).
- A pencil/pen.
- A calculator (optional).
- ANGEL for code submission.

Anything not specifically allowed is prohibited. In particular, you may not use code written by someone outside your lab group unless it came from the course website.

**For all problems:**

The only code in the programs should be the code which is necessary to accomplish the task—points will be deducted if there is extra stuff that we need to sort through. At the end of the test (or before), place the code in the ANGEL drop box. If you use the Chrome web browser please email the code to your instructor instead.
