

Author Biography

Yaoyao Clare Duan is an undergraduate student from Boston College double majoring in mathematics and finance. The paper *A Multi-Objective Approach to Portfolio Optimization* is her senior year thesis. She is graduating in May 2007. After graduation, she is working full-time as an investment-banking analyst. Other than mathematics, she enjoys traveling, running, kayaking, badminton and piano.

She would like to answer any questions you have about the paper.
