Professor Roger Lautzenheiser
Department of Mathematics CM 135
Rose-Hulman Institute of Technology
5500 Wabash Avenue
Terre Haute, IN 47803

Dear Professor Lautzenheiser,

I certify that the paper "Linear N-graphs" submitted to RHIT Undergraduate Math Journal for publication was written by the stated authors Miss Gülnür Başer and Miss Demet Taylan, during fall of 2006. They are at the fourth (last) year of their undergraduate study, and they expect to receive a BS degree in Mathematics in June, 2007. The work presented in the paper was extracted from their project that was prepared under my supervision. It contains new and original materials, and it has not appeared any other publishing source.

If you have any further questions, please do not hesitate to contact me.

Sincerely

Yusuf Civan
