30 July 2007

Dear Editor,

I am writing to request the publication of my paper “The Burnside Group $B(3, 2)$ as a Two-Relator Quotient of $C_3 * C_3$ ” in the Rose Hulman Undergraduate Mathematics Journal. This work was completed in the Summer of 2007 at Siena College.

I am a senior mathematics major at Siena College and junior mechanical engineering major at Rensselaer Polytechnic Institute.

This work was a summer research project carried out under the supervision of Dr. Jon Bannon at Siena College.

Sincerely,

Matthew Farrelly
