

Topic	Mean	Number of 5 Ratings
Alzheimers	+	
Biodegradability and Factors that affect this	+	
Biofuels	+	
Drug Delivery techniques	+	
Field trip to Biochemical Lab or Related facility	+	
Food	+	
Immunology	+	
Molecular Modeling	+	
Pharmaceutical Patent Law	+	
Production of alcohol	+	
Tissue Engineering	+	
WMD	+	
Biochemical aspects of drug design	4.36	8
Molecular mechanisms of infectious disease	4.18	5
Molecular mechanisms of carcinogenesis	3.90	2
biochemical issues related to stem cells	3.79	5
Molecular mechanisms of intoxication and anesthesia	3.67	2
Molecular mechanisms of genetic disorders	3.66	3
Gene therapy	3.64	4
Data analysis, experiment design, and project design	3.36	4
Nutrition	3.29	5
Design of nucleic acid-based therapies	3.30	1
DNA and gene transcriptional manipulation	3.19	2
Experimental techniques, especially spectroscopy	2.93	2
Molecular mechanisms of protein transport/targeting	2.93	1
Protein folding and structure	2.96	2
DNA repair	2.79	
Protein structure determination and analysis	2.81	1
Protein purification	2.77	
Endocrine physiology	2.50	1
RNA Interference	2.57	
Photosynthesis	2.36	2
Nucleotide metabolism	2.14
