

Verilog Module Builder (vmb) Installation Procedure

(Valid as of 05 Nov 2008 for version 1.1)

1. If you have not done so already, install the LabVIEW Run-Time Engine:
 - a. Login to your computer with full Administrator rights.
 - b. Go to <http://joule.ni.com/nidu/cds/view/p/id/861/lang/en> (or go to ni.com and search on “run time engine”)
 - c. Download “LabVIEW85RuntimeEngineFull.exe (97 MB)”
 - d. Run the installer.
2. Go to the “Software” section of PLD Oasis and download the “Verilog Module Builder”.zip file.
3. Unpack the .zip file to a location where you can keep the three files together (perhaps as a folder under “Program Files”).
4. Create a shortcut to the .exe file and place it on your desktop.
5. Double-click the shortcut to start the application.
6. All done!
