

## **Verilog System Builder (vsb) Installation Procedure**

(Valid as of 05 Nov 2008 for version 1.2)

1. If you have not done so already, install the LabVIEW Run-Time Engine:
  - a. Login to your computer with full Administrator rights.
  - b. Go to <http://joule.ni.com/nidu/cds/view/p/id/861/lang/en> (or go to [ni.com](http://ni.com) and search on “run time engine”)
  - c. Download “LabVIEW85RuntimeEngineFull.exe (97 MB)”
  - d. Run the installer.
2. Go to the “Software” section of PLD Oasis and download the “Verilog System Builder”.zip file.
3. Unpack the .zip file to a location where you can keep the three files together (perhaps as a folder under “Program Files”).
4. Create a shortcut to the .exe file and place it on your desktop.
5. Double-click the shortcut to start the application.
6. All done!

NOTE: A complete set of VSB examples including simulation results is available, too. See the link nearby the VSB download link.
