EVERY GIFT MATTERS

2018-19

HONOR ROLL

—of—

DONORS
Reaching for the Top

I was inspired to read recently about a civil engineering major with Type-1 diabetes who climbed four mountains—including the tallest peaks in Africa and Europe—in a single summer.

Matt Robinson’s achievement is just one of the inspiring stories you’ll find anywhere you look on the Rose-Hulman campus. Every student here has a story to tell and a mountain to climb.

The hard work and determination needed to succeed at Rose-Hulman is one reason we continue to be ranked among the best STEM colleges and universities in the U.S. In addition to offering a rigorous curriculum, we strive to give our students the personal attention they need to succeed. That’s why our faculty are not just experts in their fields but also dedicated educators.

None of this is easy or inexpensive. That is why we are so grateful to our alumni and friends who remember Rose-Hulman with financial support. Everyone who contributes is making a real difference in the lives of our students and ensuring the continued success of the institute well into the future.

We are now more than a year into the public phase of our Mission Driven campaign to raise $250 million by the end of 2020. Today, I’m pleased to report we have raised more than $180 million, bringing us just over 70 percent of the way toward our goal.

Mission Driven comprises three primary goals:

- Fund scholarships to improve affordability, accessibility and student achievement
- Strengthen our endowment to support faculty positions, global study, student competition teams and other programs
- Improve our facilities by constructing new spaces for collaboration, discovery and innovation

Each of these goals is key to the institute remaining a leader in STEM education in the U.S. and around the world.

I hope you join me in supporting this campaign. To learn how you can help, please contact me at brady1@rose-hulman.edu or 812-877-8784. I look forward to working with you as we strive to ensure our students have the support they need to reach the highest peaks.

Steven P. Brady
Vice President for Institutional Advancement
A New Addition

Linda and Mike Mussallem have contributed greatly to the quality of campus life through gifts that have expanded the student union, renamed the Mussallem Union (affectionately nicknamed “The Muzz”), to honor the couple’s generosity, and added a new pavilion, which opened for student use this fall. Through their philanthropic gifts, Linda and Mike wished to create campus spaces that promoted a better quality of life, stronger relationships and healthier food options. Sustainability also is a big part of both projects with a living wall in The Muzz’s living room and a living roof on top of the pavilion. Mike is a 1974 chemical engineering alumnus who is chairman and chief executive officer of Irvine, California-based Edwards Lifesciences. Watch a time lapse video of the pavilion’s construction at www.rose-hulman.edu/pavilioninmotion.

Innovation Inspiration

Richard Kremer never forgot the caring faculty and staff members whose contributions helped him earn a chemical engineering degree from Rose Polytechnic Institute in 1958. That’s why he and his wife, Shirley, provided a generous financial gift to support the establishment of the Kremer Innovation Center on campus. The 13,800-square-foot building, dedicated last spring, is providing opportunities for students to enhance their hands-on, collaborative educational experiences through fabrication equipment, 3D printers, wind tunnels, a makerspace, and classrooms for the new engineering design program. Richard Kremer is the founding owner of FutureX Industries Inc., a plastics manufacturing company in Bloomingdale, Ind. Learn more about the Kremer and Branam Innovation Centers at www.rose-hulman.edu/innovationcenters.

The Future is Underway

Construction of the new $29 million, 70,000-square-foot academic building on campus achieved a significant milestone this fall when one of the final steel beams was raised and attached to the project. An architectural rendering shows how the building will look upon completion for the 2021-22 school year. The building is being supported through a $15 million lead gift from an anonymous donor as part of Rose-Hulman’s Mission Driven campaign.

Opening New Doors

Dale Campau, a 1979 chemistry alums, wanted to ensure students continue to get hands-on experiences with state-of-the-art laboratory equipment. His name adorns the new Digital Fabrication Laboratory inside the Richard and Shirley Kremer Innovation Center.

EVERY GIFT MATTERS

Leadership Starts at Top

Philanthropic support for Rose-Hulman starts at the top with President Rob Coons and his wife, Tammy, receiving a full plaid jacket and scarf made from the material replicating the tartan from founder Chauncey Rose’s Scottish roots. Coons is celebrating his one-year anniversary in leading the institute and his 30th year at Rose-Hulman.

A Good Fit to Giving

Donald Carroll remembers how hard it was to afford Rose Polytechnic Institute’s tuition in the mid-1950s. After concluding a successful career in engineering and management in aerospace and medical industries, he made a significant contribution to the Class of 1957’s scholarship fund, which helps current students to realize their higher education aspirations.
Members of the Class of 1957 have established one of the largest class scholarships, awarding more than $102,000 to students. These scholarships are invaluable for our students to attend the college. Several 1957 graduates returned this fall to enjoy Homecoming and the opportunity to reminisce about their days on campus.

Mission Driven Hits Milestone

There were plenty of reasons to celebrate—175 million to be exact—last spring when the Mission Driven Campaign for Rose-Hulman surpassed the $175 million threshold of its $250 million fundraising efforts to support scholarships, increase the institute’s endowment and build new spaces to encourage collaboration, discovery and innovation. Learn more at rosedriven.com.

The Shack Lounge

Joe Wendel has honored fellow 1995 classmate Brian Shattuck by underwriting the costs of a student lounge area in the middle of the second floor of the Mussallem Student Union. The space was dedicated earlier this fall.

Start Your Engines

Members of the Trueblood and Trobaugh families helped cut the ribbon during Homecoming to open the new engine testing laboratory in the Branman Innovation Center. Thanks to their generosity, along with others, the lab was moved from the Rotz Innovation Center in order to have expanded, improved space and be closer to student competition teams.

Supporting Our Military
John Swearingen, a 1981 chemical engineering alumnus who had a successful career with Marathon Petroleum, has established the James Swearingen and Henry Yablonski Endowed Scholarship to support students who are military service veterans or dependents of military parents.

Supporting Collaboration
The Dr. John T. Ying Endowment for Student and Faculty Collaboration was established by the Ying family and alumni contributors to assist academic projects by students and faculty. On hand this spring to present the first award were Ying’s daughters, Evelyn, Angela and Helga; grandson, Henry John Ying Lewis; and alumni/trustee Mike Hatfield.

**Marathon Petroleum Gives Back**

Marathon Petroleum continued its loyal corporate commitment to Rose-Hulman by providing donations to support four academic departments, three professional student organizations and six student diversity groups. Members of the National Society of Black Engineers received this check.

**Oakley Observatory Opening Skies**

The Hollie and Anna Oakley Foundation, Inc. of Terre Haute and several alumni have supported Rose-Hulman’s astronomy program by establishing a state-of-the-art on-campus facility, with eight telescopes, founded in 2000.
**EVERY GIFT MATTERS**

**VARSIETY CLUB**

**1888 Circle**

1888 is the first year Rose-Hulman participated in intercollegiate athletics.

**LEGEND:** ‘00 – Alumnus/alumna class year  HD’00 – Honorary degree recipient  *Deceased
The Grass is Greener

Rose-Hulman and its football team stepped up their games this fall with the installation of a new synthetic turf field at Cook Stadium—thanks to the contributions of several alumni members within the Varsity R Club and Athletic Endowment. The improved playing surface will keep the athletic program competitive with its NCAA Division III peers, provide more flexibility for team practices, and could be used for other varsity athletic practices, intramurals and academic activities year-round.

Watch a time lapse video of the football turf’s installation at www.rose-hulman.edu/newturf.

Chauncey Rose Society

Faithful alumni, their families and other loyal supporters were honored at Homecoming for a significant achievement in their philanthropic gifts to Rose-Hulman. Receiving the Chauncey Rose family tartan jacket for donations amounting between $50,000 and $250,000 (front row, from left) David Price (EE, 1986), Karen Grafe, Jane Jacobi, Shiela (Anne) Staggs, Kathy Banerjee and Nellie Hohne (ME, 1999). In the back row (from left) are Leon Joseph (Joe) Grafe (ME, 1969), John Jacobi (EE, 1959), David Staggs (CE, 1964), Clifford Lewis (CHE, 1969), Robbin (Rob) Banerjee (ME, 1978), Daniel Hohne (CHE, 1999) and Craig Downing (Interim Dean of Lifelong Learning and Head of the Department of Engineering Management).

Meanwhile, Mary and Pat Cahill (CE, 1967) joined Ralph Kirkpatrick (ME, 1974) in receiving crystal bowls for achieving $250,000 in gifts to the institute.
