'06, '11, or '15 Grad?

The 2016-17 Baccalaureate Survey is currently being conducted (March 8 through April 9) for alumni who graduated in 2006, 2011, and 2015. To read more, [click here](#).

GREAT GRAD GIFTS!

**Purchase a
Personalized
Brick**

A great time was had by all at both of these special events. Thank you to all who attended!

Alumni News

A one-of-its-kind McLaren P1 hypercar brought in a world record \$2.39 million price on auction with proceeds supporting the endowment of a faculty chair. [Read more](#).

Largest ChemE Class in History

Rose-Hulman Alumni have a long history of paying it forward when it comes to career starts for our graduates. The activity surrounding alumni collaborating with career services and representing their organizations on campus for new hires and internships rivals anywhere in the country. For this, I am deeply grateful. Depending on certain economic conditions, we sometimes find ourselves needing to reach out and ask for additional opportunity referrals. **We are graduating the largest class of Chemical Engineers in the history of Rose-Hulman while seeing a significant decline in opportunity level from industry that would traditionally recruit these students.** Our students are having great success but we would like to find additional opportunities for full time and internship positions for all majors, but specifically for Chemical and Biomedical Engineering majors. If you know of an opportunity at your place of employment or know of opportunity elsewhere, please email me at hewerdin@rose-hulman.edu and I will be sure to follow up on your lead. Thank you in advance for all of your efforts.

Kevin Hewerdine
