'Tis the Season to Give Back

The holiday season is a time to give back to the people, organizations and institutions that have helped shape us along the way. Giving to Rose-Hulman during the holidays helps the Institute provide better experiences for students all year round. We hope that Rose-Hulman will be included in your plans for giving back this holiday season.

Don't forget that the tax deadline for 2018 is December 31. You can make your gift, day or night, by clicking on the button below or by calling (812) 877-8217 during business hours. The Institute is closed for the holidays from December 24 through January 1. Gifts can be made in person by appointment only from December 26-28 & 31. Gifts of appreciated stock/securities must be transferred by Friday, December 21, to ensure processing by the tax deadline.

Engineering Design Major

In May, the board of trustees approved the first stand-alone major to the Rose-Hulman curriculum in more than 20 years with the addition of an Engineering Design program.

Led by award-winning professor Patsy Brackin, the program will allow students—beginning in their first academic quarter on campus—to have hands-on experience designing real-world projects for clients.
