

Honesty Pledge – Exam 1 (September 25, 2013)

Read the following carefully. Turn it in when you complete this test.

1. I understand that the Instructor expects me to be honest on this test.
2. I understand “being honest” includes:
 - a. **While I am taking this test, I will not communicate in any way with anyone other than the Instructor or his assistants.**
 - I will not talk with anyone else or exchange information with them during the test.
 - **I will not use email, chat** or the like during the test.
 - b. **After** taking this test, if I want to communicate with anyone about this test, I will make sure that she has already taken the test. If she has not, I will not communicate with her in any way about the test. No hints, no suggested problems to study, nothing!
 - c. For the **paper-and-pencil** part, the only external resource allowed is the 1-page (front and back) “cheat sheet” that I brought to the test.
 - d. For the **on-the-computer** part:
 - I may use any written materials that I have brought to the test. I may use anything stored on my computer before the test.
 - I will *not* use the internet beyond what is allowed – items reachable directly from the CSSE 120 web site, and my SVN repositories.
 - **I will not use any search engine (like Google).**
3. I understand that if I am NOT honest on this test (i.e., if I violate the above rules), **that is grounds for me to receive an F in the course, along with possible expulsion from Rose-Hulman.**
4. I understand that if I do NOT do as well on this test as I would like, **I can discuss with my instructor how best to deal with that.** In particular, I understand that doing well on subsequent tests and other opportunities may mitigate poor performance on this test – an upward trend in this course means a lot!

5. **Check one of the following:**

I agree to the above.

I do NOT agree to the above and will talk with you (David Mutchler or Claude Anderson) privately soon after the test.

Turn this in when you complete the test.
