

Name: _____ Section: 1 2 3 4

1 = Stouder, 2nd-3rd periods. 2 = Stouder, 4th-5th periods. 3 = Mutchler, 7th-8th periods. 4 = Rupakheti, 9th-10th periods.

Use this quiz to help make sure you understand the videos/reading. **Answer all questions.** Make additional notes as desired. **Not sure of an answer?** Ask your instructor to explain in class and revise as needed then. **Please print two-sided if practical.**

Throughout, where you are asked to “circle your choice”, you can circle or underline it (whichever you prefer).

Video: ***The Flipped Classroom*** [4:42 minutes]

1. CSSE 120 uses a **flipped learning** approach? **Yes No** (circle your choice)
2. In a **flipped** classroom, the **deep** learning occurs (circle your choice):
 - a. In the classroom, during lectures
 - b. In the classroom, doing exercises
 - c. Outside the classroom, doing homework
 - d. Outside the classroom, watching videos
3. True or false: In CSSE 120, **before** most sessions you will watch some short videos and/or do some reading from your textbook, plus do a short quiz. **True False**
(circle your choice)
4. You should do the quiz (circle your choice):
 - a. Before you watch the associated videos and/or do the reading
 - b. While you are watching the associated videos and/or doing the reading
 - c. After you watch the associated videos and/or do the reading
 - d. Your choice – any of the above are fine, although many students will do best doing option (b).
5. What should you do if there are questions in the quiz whose answer you don't know?
(Circle your choice)
 - a. Cry.
 - b. Beat up your professor.
 - c. Leave the question(s) blank and ask about it at the beginning of class.
6. If you don't watch the video and do the quiz before class, should you come to class anyhow? **Yes No** (circle your choice)
7. Is it appropriate to NOT do the video until class, and then ask your professor (or an assistant or classmate) for the answers to all the questions? **Yes No** (circle your choice)
8. True or False: Before you begin the in-class exercises for a session, you must do the quiz (and hence its associated videos/reading) for that session, even if that means doing the quiz at the beginning of a session. That is, your quiz is your **admission ticket** for doing the in-class exercises. **True False** (circle your choice)

Video: ***What is Software Engineering?*** [3:44 minutes]

9. What is the name of the ***programming language*** that we will use in this course?
10. True or False: The programming language for our course is mostly used to teach beginners how to program. **True** **False** (circle your choice)
11. This course covers (circle your choice):
- a. All of ***software engineering***
 - b. The subset of software engineering called ***software development***
12. True or False: Software engineers rarely interact with other people when doing their job well. **True** **False** (circle your choice)
13. True or False: A typical software engineer spends most of her time typing lines in a program. **True** **False** (circle your choice)
14. True or False: Men are usually better software engineers than women are. **True** **False** (circle your choice)
15. True or False: Software engineering requires being a creative thinker. **True** **False** (circle your choice)

Online Reading: Course Policies, from the Syllabus linked at the course web site
www.rose-hulman.edu/class/csse/csse120

(See the link to the *Syllabus* in the upper-right corner of the course web site.)

16. Have you bookmarked the course web site? (I hope so!) **Yes** **No** (circle your choice)
17. True or False: This course assumes that you have at least some *prior programming experience*, as a prerequisite for the course. **True** **False**
(circle your choice)
[Hint: Look at ***Prerequisites*** in the ***Catalog Description*** section.]
18. True or false: If you do not ***initially*** complete Exercise 1 (for example) satisfactorily, you automatically fail the course? (Hint: The answer is *False*.) **True** **False** (circle your choice)
[Hint: Look at the ***Assessment Plan*** section.]
19. True or false: If you ***never*** complete Exercise 1 (for example) satisfactorily, you automatically fail the course? (Hint: The answer is *True*.) **True** **False** (circle your choice)
[Hint: Look at the ***Assessment Plan*** section.]

20. Suppose that your scores on work for this course are:

- Quizzes and in-classes exercises: all perfect.
- Average of your 3 exams during the term: 100%.
- Final examination: 60%.
- End-of-term team project: 90%.

Then your letter grade for the course is (circle your choice):

A B+ B C+ C D+ D F

[Hint: Look at the **Assessment Plan** section.]

21. Suppose that your scores on work for this course are:

- Quizzes and in-classes exercises: all perfect.
- Average of your 3 exams during the term: 100%.
- Final examination: 90%.
- End-of-term team project: 60%.

Then your letter grade for the course is (circle your choice):

A B+ B C+ C D+ D F

[Hint: Look at the **Assessment Plan** section.]

22. Have you read, and do you understand, the **Attendance Policy**? **Yes** **No**
(circle your choice)

23. True or false: Consider Session 5 (for example).

You begin an exercise in class then (as at all sessions).

That exercise should normally be completed before Session 6. **True** **False**
(circle your choice)

[Hint: Look at the **Can I submit assignments after they are due?** section.]

24. True or false: Consider Session 7 (for example), and the exercise that you are supposed to begin in that session. The latest that you can turn in that exercise, without penalty, is (circle your choice):

- a. At the end of Session 7.
- b. At the beginning of Session 8.
- c. At the beginning of Session 9.
- d. At the end of Session 9.
- e. At the beginning of Session 10.
- f. None of the above.

[Hint: Look at the **Can I submit assignments after they are due?** section.]

25. True or false: It's OK if you and a friend agree that you will do the exercises for the odd-numbered sessions, and your friend will do the exercises for the even-numbered sessions, and you'll share your work. **True False**
(circle your choice) [Hint: Look at the **Academic Integrity** section.]
26. True or false: It's important to make a sincere effort to *understand* the concepts behind each problem on which you get help. **True False**
(circle your choice) [Hint: Look at the **Academic Integrity** section.]
27. True or false: Suppose you are taking an exam in this course and a friend in another section of the class emails you, asking you for the answer to a problem that you know you got right. The right thing to do, according to the Rose-Hulman culture, is to send your answer to your friend. **True False**
(circle your choice) [Hint: Look at the **Academic Integrity** section.]
28. True or False: **I have read the Academic Integrity section of the Syllabus and I understand it.** **True False** (circle your choice)

Textbook Reading: Section 1.5 and 1.6 – Analyzing Your First Program (pages 11 – 13) and **Errors** (page 14) **from your textbook (Python for Everyone, by Horstmann and Necaie):**

29. A Python **comment** begins with **#** and goes until the end of the line. What is the purpose of such comments?
30. When we call a Python function (such as **print**), the information that we provide to the function (such as what we want printed) must be enclosed in _____.
31. A sequence of characters enclosed in quotation marks is called a _____.
32. True or false: Indentation in Python programs should be used to make them more readable to a human, but it does not affect what the program does. **True False** (circle your choice)
33. Suppose that you make a typing error in a program, for example if you forget the closing quote of a string, as in: **print('All crows are black)**
Such an error is sometimes called a (circle **ALL** that apply):
- a. **compile-time** error c. **run-time** error e. **logic** error
b. **syntax** error d. **exception**
34. True or false: Python statements are case-insensitive. For example, the following statements are equivalent. **True False** (circle your choice)

```
print('hello')
```

```
PRINT('hello')
```
