

Project Turn-ins

Dates:

- a. Final Xilinx model on Friday, February 20, 2004.
- b. Project report and presentation slides by Wednesday, February 25th, 2004, 9:00 PM.
- c. Confidential team-mate evaluations due by February 25th, 2004, 9:00 PM.

How to turn-in:

- a. For the Xilinx model, zip all the files, except the output from ModelSim i.e. files with a .wlf extension and place it in your turn-in folder under a folder called Final Datapath. Do not commit it to the CVS folder.
- b. For the project report and presentation slides, again zip up the documents and e-mail the zipped document to me. Also, give me a hard copy of both the report and presentation slides.
