CSSE 230

EditorTrees reflections

Upcoming topics

　Analyzing runtime of recursive functions.
+ More sorting: quicksort, radix sort.
= How fast can sorting algorithms be?

EditorTrees *technical* reflection

- Some code had many special cases to consider, others not so many
- Some code had lots of big and little bugs, others not so many
- What was your experience?
- How did your team plan ahead of time?
- How did your team react to this?
- What could you have done differently?
  - Tests? Debugger?
- What would you recommend to a team just starting this project next term?

- Team meeting now to analyze, then to compare with another team, and finally report back to class.

EditorTrees Advice

EditorTrees Advice

Worktime

- Reminder: your team evaluation is due tonight. Do it in class **now** if you haven't.

- Then worktime for GraphSurfing.
