O.C.G.A. 16-9-93(b) Computer Trespass:

<https://law.justia.com/codes/georgia/2010/title-16/chapter-9/article-6/part-1/16-9-93/>

Judge Schrader was accused of computer trespass. Was it **ethical** for Judge Schrader to use hired experts and wireshark to monitor the county computer system?

In your report, *cite a code of ethics* and explain what procedure Schrader and her experts *SHOULD* have followed to expose evidence of hacking. In your answer you may either confirm and elaborate upon the procedure they followed or explain a better procedure.

You may find it helpful to reference additional coverage of this case or other relevant analysis or cases. Support your answer with references and description of relevant investigation procedure (like what we discussed in class). If you must make an assumption about something (because you cannot find a reference), make it clear what you assume.
