

Item	Value
Use-case name	Request for information
Brief description	A person that would like to receive information about Rose-Hulman Institute of Technology
Actor(s) involved	The person interested, the website
Basic flow of events	A person will access the Rose-Hulman website and begin filling out an information form. The form will perform basic validation on the data to ensure that all required fields are filled and the data is consistent with expectations. If the form is correct when submitted, it will be emailed to the admissions office.
Alternate flow(s) of events	One alternate flow would be that the person does not fill out the form entirely or with possibly incorrect information. The website will display the form again, highlighting the errors the person may have made.
Pre-conditions to use case	The person has internet access and an e-mail address.
Post-conditions of use case	[none]
Special requirements	

Item	Value
