

CSSE 372 – Software Project Management

Final Project – Software Project Management Plan Presentation

Objective

This **Team Assignment** is to present your Final Software Project Management Plan (SPMP). The object of the assignment is to present your SPMP to a group of decision makers (the class) and respond to questions.

Again, be creative and you will find this experience rewarding. Good luck and have fun!

Due Date for Presentation Material

11:55 p.m., Tuesday, Week 10, November 6th, 2012.

Final Project Instructions

Prepare your presentations for Thursday and Friday. Given that we have 6 or 7 of these (depending on section), you will only be given 12 minutes to present your slides and a couple of minutes to respond to questions. You need to be clear and knowledgeable about your project here, so I suggest that you practice in advance.

Please see the Final Project Presentation template and example provided via the schedule page. Hopefully, these will be helpful.

Tasks

1. As a team, prepare your presentation. Again, you will only be given 12 minutes to present your material and a couple of minutes to respond to questions. Please design the presentation so that everyone on your team gets to participate.
2. Submit the Final Project Presentation slides to Angel as instructed below.
3. Present your material on Thursday and Friday (note the change from the original schedule).

Submitting Your Work

Please submit your assignment as a single document to the Angel Final Project Dropbox on Angel under “../Lessons/Final Project Dropbox and Material/Final Presentation Dropbox”. Please submit a PowerPoint file with the completed final project presentation slides containing your Names, Title, Date, and the results of the tasks above. Please name the document:

<your team number>-FinalPresentation.ppt
(e.g., *Team1- FinalPresentation.ppt*).
