

CSSE 372 – Software Project Management

Homework 7 – Review Software Project Management Plan

Objective

As a team, to review another team's Software Project Management Plan (SPMP) using a review checklist designed to illumine key aspects of a SPMP. This exercise is an opportunity to take your team's experience in developing a SPMP coupled with a review checklist and critically analyze anther team's SPMP to gain a deeper understanding of project planning. As you go through the SPMP, consider how effectively the plan would enable you to manage a software project.

Due Date

11:55 p.m., Tuesday, Week 10, November 6th, 2012.

Tasks

This is a team assignment to review another team's Software Project Management Plan (SPMP) using a review. As such, there is a "Who Done What" table at the end that you will need to fill out. Again, this needs to be specific.

1. Download and read through the SPMP review checklist template.
2. Determine your team's strategy for completing the review (e.g., who does which sections and the like).
3. Complete the review using the SPMP-Review-Checklist-Template.doc.
4. Complete the "Who done what" table at the end of the above template.

Submitting Your Work

Please submit your assignment as a single document to the Angel Final Project Dropbox on Angel under "../Lessons/Homework Dropboxes/HW7: *SPMP Review*". Please submit a **pdf** file of the completed final project SPMP Template containing your Names, Project Title, Date, and the results of the tasks above. Please name the document:

<your team number>-of-<team whose plan you reviewed>-*SPMP_Review.pdf*
(e.g., *Team1-of-Team4-SPMP_Review.pdf*).
